THE INSTITUTE FOR COMMUNITY & PUBLIC HEALTH

Adult Immunisation Schedule & Catch-Up Pathways

Clinical Guidelines · GUIDE · Version 2.1

The complete adult immunisation schedule with decision support for incomplete or uncertain vaccination histories.

Overview

This guideline consolidates the recommended adult immunisation schedule into a single reference, with clear catch-up pathways for people whose vaccination history is incomplete or unknown. It is written for primary care and community immunisation teams who need fast, defensible decisions at the point of care.

What's inside

A plain-language overview you can read in one sitting
- Step-by-step guidance with decision points called out
- Worked examples drawn from real community practice
- A one-page summary to keep at your desk

How to use it

Read it through once to orient yourself, then return to the relevant section when you need it. Share the one-page summary with colleagues who need the headlines rather than the detail.

About this collection

This document belongs to the Clinical Guidelines collection of the ResourceVault library and is provided as a demonstration document for evaluation purposes.
