THE INSTITUTE FOR COMMUNITY & PUBLIC HEALTH

Campaign Planning Toolkit

Templates & Toolkits · TOOLKIT · Version 2.1

An end-to-end toolkit for planning, delivering, and evaluating a health behaviour campaign.

Overview

From audience insight to creative testing and evaluation, this toolkit covers the full campaign lifecycle with checklists at each gate so nothing is missed.

What's inside

A set of practical tools you can use independently or together

- Checklists and templates for each stage of the work
- Facilitation notes for running sessions with your team
- An evaluation plan so you can measure impact

How to use it

Pick the tools that fit your context rather than working through everything mechanically. Run the facilitation sessions with the people who will deliver the work, and build the evaluation in from the start.

About this collection

This document belongs to the Templates & Toolkits collection of the ResourceVault library and is provided as a demonstration document for evaluation purposes.
