THE INSTITUTE FOR COMMUNITY & PUBLIC HEALTH

# Equality & Health Impact Assessment Toolkit

Templates & Toolkits · TOOLKIT · Version 1.0

*A toolkit for completing a combined equality and health impact assessment.*

## Overview

This toolkit guides teams through a proportionate equality and health impact assessment, with screening questions, scoring, and a mitigation log that stands up to challenge.

## What's inside

A set of practical tools you can use independently or together

- Checklists and templates for each stage of the work
- Facilitation notes for running sessions with your team
- An evaluation plan so you can measure impact

## How to use it

Pick the tools that fit your context rather than working through everything mechanically. Run the facilitation sessions with the people who will deliver the work, and build the evaluation in from the start.

## About this collection

This document belongs to the Templates & Toolkits collection of the ResourceVault library and is provided as a demonstration document for evaluation purposes.
