THE INSTITUTE FOR COMMUNITY & PUBLIC HEALTH

Falls Prevention Assessment Pathway

Clinical Guidelines · GUIDE · Version 1.0

A multifactorial falls risk assessment pathway for older adults living independently.

Overview

This pathway equips community teams to deliver a structured, multifactorial falls assessment and to commission the right onward interventions, from strength-and-balance programmes to home hazard reviews.

What's inside

A plain-language overview you can read in one sitting
• Step-by-step guidance with decision points called out
• Worked examples drawn from real community practice
• A one-page summary to keep at your desk

How to use it

Read it through once to orient yourself, then return to the relevant section when you need it. Share the one-page summary with colleagues who need the headlines rather than the detail.

About this collection

This document belongs to the Clinical Guidelines collection of the ResourceVault library and is provided as a demonstration document for evaluation purposes.
