THE INSTITUTE FOR COMMUNITY & PUBLIC HEALTH

Information Governance Starter Pack

Data & Digital Health · TOOLKIT · Version 1.0

An accessible starter pack covering the information governance essentials for health teams.

Overview

This starter pack demystifies information governance, covering lawful bases, data sharing agreements, and retention in language non-specialists can act on.

What's inside

A set of practical tools you can use independently or together

- Checklists and templates for each stage of the work
- Facilitation notes for running sessions with your team
- An evaluation plan so you can measure impact

How to use it

Pick the tools that fit your context rather than working through everything mechanically. Run the facilitation sessions with the people who will deliver the work, and build the evaluation in from the start.

About this collection

This document belongs to the Data & Digital Health collection of the ResourceVault library and is provided as a demonstration document for evaluation purposes.
