THE INSTITUTE FOR COMMUNITY & PUBLIC HEALTH

Outreach Event Risk Assessment Template

Community Outreach · TEMPLATE · Version 1.0

A reusable risk assessment template tailored to community health events and street outreach.

Overview

This editable template covers the hazards specific to community events, from lone working to adverse weather and medical incidents, with pre-filled controls you can adapt for your setting.

What's inside

A fully structured, editable document ready to localise
- Pre-filled prompts so you start from substance, not a blank page
- Guidance notes explaining what belongs in each section
- A completed worked example for reference

How to use it

Make a copy, replace the prompts with your own content, and delete the guidance notes before you circulate the finished document. Keep the original as a master so future projects start from the same baseline.

About this collection

This document belongs to the Community Outreach collection of the ResourceVault library and is provided as a demonstration document for evaluation purposes.
