THE INSTITUTE FOR COMMUNITY & PUBLIC HEALTH

Responding to Government Consultations: Toolkit

Policy & Advocacy · TOOLKIT · Version 1.0

Templates and tactics for submitting a compelling, evidence-led consultation response.

Overview

Consultation windows are short and the format is unforgiving. This toolkit helps members marshal evidence quickly and respond in a way that decision-makers can actually use.

What's inside

A set of practical tools you can use independently or together

- Checklists and templates for each stage of the work
- Facilitation notes for running sessions with your team
- An evaluation plan so you can measure impact

How to use it

Pick the tools that fit your context rather than working through everything mechanically. Run the facilitation sessions with the people who will deliver the work, and build the evaluation in from the start.

About this collection

This document belongs to the Policy & Advocacy collection of the ResourceVault library and is provided as a demonstration document for evaluation purposes.
