Risk Register Template for Health Programmes

Templates & Toolkits · TEMPLATE · Version 1.0

A pre-structured risk register with scoring matrix and example risks for health programmes.

Overview

A practical risk register that comes pre-populated with common programme risks and a clear scoring matrix, so teams can start managing risk on day one.

What's inside

A fully structured, editable document ready to localise
- Pre-filled prompts so you start from substance, not a blank page
- Guidance notes explaining what belongs in each section
- A completed worked example for reference

How to use it

Make a copy, replace the prompts with your own content, and delete the guidance notes before you circulate the finished document. Keep the original as a master so future projects start from the same baseline.

About this collection
