Service Evaluation Plan Template

Templates & Toolkits · TEMPLATE · Version 1.0

A ready-to-complete evaluation plan template with logic model and indicator library.

Overview

Designed to be filled in over an afternoon, this template includes a logic model canvas and a starter indicator library so evaluation is planned before a service launches, not after.

What's inside

A fully structured, editable document ready to localise
- Pre-filled prompts so you start from substance, not a blank page
- Guidance notes explaining what belongs in each section
- A completed worked example for reference

How to use it

Make a copy, replace the prompts with your own content, and delete the guidance notes before you circulate the finished document. Keep the original as a master so future projects start from the same baseline.

About this collection

This document belongs to the Templates & Toolkits collection of the ResourceVault library and is provided as a demonstration document for evaluation purposes.
