THE INSTITUTE FOR COMMUNITY & PUBLIC HEALTH

Smoking Cessation Outreach Campaign Kit

Community Outreach · TOOLKIT · Version 1.0

Campaign assets, scripts, and an evaluation plan for a community smoking cessation drive.

Overview

A ready-to-localise campaign kit covering message framing, conversation scripts for brief interventions, and a simple evaluation plan so teams can demonstrate quit-attempt conversion.

What's inside

A set of practical tools you can use independently or together

- Checklists and templates for each stage of the work
- Facilitation notes for running sessions with your team
- An evaluation plan so you can measure impact

How to use it

Pick the tools that fit your context rather than working through everything mechanically. Run the facilitation sessions with the people who will deliver the work, and build the evaluation in from the start.

About this collection

This document belongs to the Community Outreach collection of the ResourceVault library and is provided as a demonstration document for evaluation purposes.
