Stakeholder Mapping Canvas

Templates & Toolkits · TEMPLATE · Version 1.0

A printable canvas for mapping stakeholders by influence, interest, and engagement approach.

Overview

This canvas turns stakeholder mapping from an abstract exercise into a working plan, with a quadrant grid and an engagement-action column for each stakeholder.

What's inside

A fully structured, editable document ready to localise
• Pre-filled prompts so you start from substance, not a blank page
• Guidance notes explaining what belongs in each section
• A completed worked example for reference

How to use it

Make a copy, replace the prompts with your own content, and delete the guidance notes before you circulate the finished document. Keep the original as a master so future projects start from the same baseline.

About this collection

This document belongs to the Templates & Toolkits collection of the ResourceVault library and is provided as a demonstration document for evaluation purposes.
