THE INSTITUTE FOR COMMUNITY & PUBLIC HEALTH

Wound Care Formulary for Community Nursing

Clinical Guidelines · GUIDE · Version 2.1

A rationalised wound care formulary with dressing selection guidance by wound type and exudate level.

Overview

Developed with tissue viability specialists, this formulary helps community nurses select appropriate dressings, reduce product variation, and control cost without compromising healing outcomes.

What's inside

A plain-language overview you can read in one sitting
• Step-by-step guidance with decision points called out
• Worked examples drawn from real community practice
• A one-page summary to keep at your desk

How to use it

Read it through once to orient yourself, then return to the relevant section when you need it. Share the one-page summary with colleagues who need the headlines rather than the detail.

About this collection

This document belongs to the Clinical Guidelines collection of the ResourceVault library and is provided as a demonstration document for evaluation purposes.
